

## Portable CNC Plasma and Profile Cutting Machine

### Features

- ◆ Portable CNC cutting machine with wide rails.
- ◆ Increase stability as compared to peers in the market.
- ◆ Rigid structure ensures better accuracy over life of the machine.
- ◆ Oxy fuel and plasma cutting processes.
- ◆ Integrated with Different range of of plasma machines.

Cutting Thickness	1.5 mm - 20 mm MS by Plasma cutting 1 mm - 18 mm SS by Plasma cutting 6 mm - 100 mm MS by Gas cutting
Model Number	1530 / 1560 / 1590
Effective Cutting Width	1.5 - mtr
Effective Cutting Length	3 mtr - 6 mtr - 9 mtr
Cutting Method	Plasma or Profile
